To Department of Justice,

Let us move on with what would help our country and economy the most.  
Let us PLEASE move forward. Half the states have agreed with the decision.  
The Microsoft case has no justifiable reason to continue. The truth is that  
most consumers appreciate how MICROSOFT HAS MADE COMPUTERS REALLY USER  
FRIENDLY.

I am also a very typical American public who agrees with most Americans  
to "MOVE ON!"

Thank You

For Taking The Time
